

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/jtd-19-739	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	In-life imaging data will be shared. We would like to see if more information can be extracted on growth and remodeling of the novel conduit by more advanced image analysis
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested
5	When will data availability begin?	From the publication date
6	When will data availability end?	Five years since publication date
7	To whom will you share the data?	To experts on in vivo image analysis
8	For what type of analysis or purpose?	To extract more information on growth and remodeling of the novel conduit with time
9	How or where can the data/documents be obtained?	By email conversation with the corresponding author
10	Any other restrictions?	We may balance potential benefit and risk of each request. Interested researchers will be required to sign a non-disclosure agreement before data can be shared.
