

Supplementary Figure 1. Participant registration. NAGALA, NAfld in Gifu Area, Longitudinal Analysis; CKD, chronic kidney disease.

Supplementary Figure 2-A. Hazard ratios and 95% confidence intervals for incident type 2 diabetes in the former half (2-A) and latter half (2-B).

The numbers below each group indicates the number of participants developed type 2 diabetes / participants classified in each group (percentage). The hazard ratios and 95% confidence intervals were calculated adjusting for age, body mass index, waist circumference, smoking status, exercise, hemoglobin A1c, triglycerides and alanine transaminase at baseline.

Non-: none or minimal.
