

Figure 1. Aioluminescence and luciferase assay of HCC cell lines. (A) PLC/PRF/5 cell line. (B) MHCC97-H cell line.

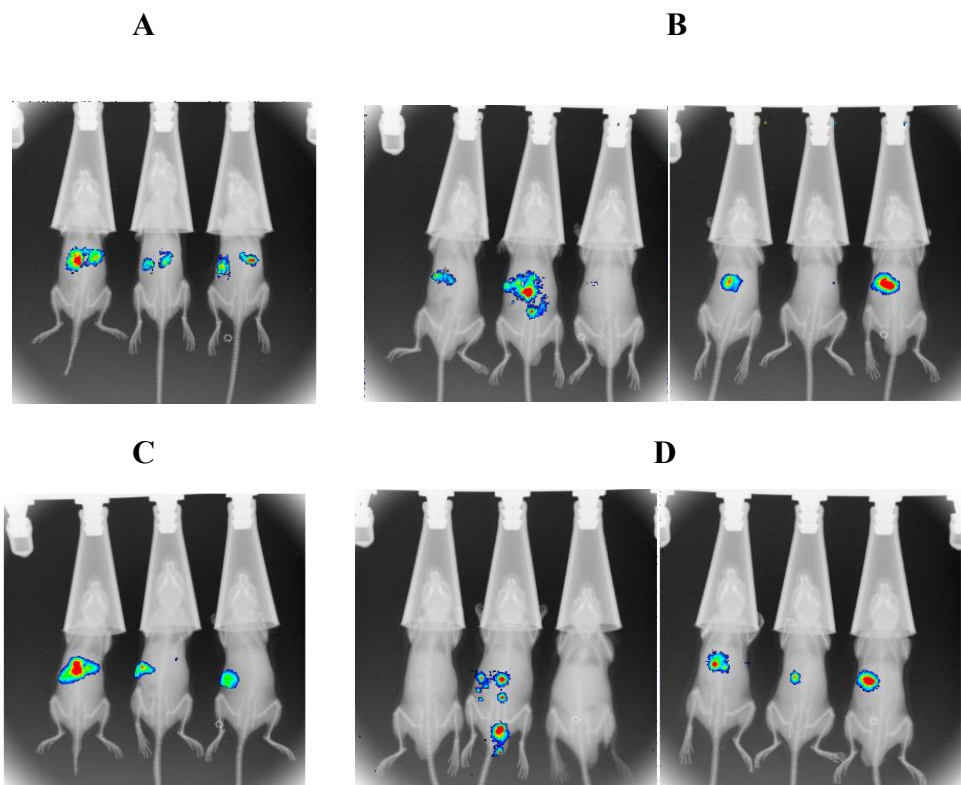

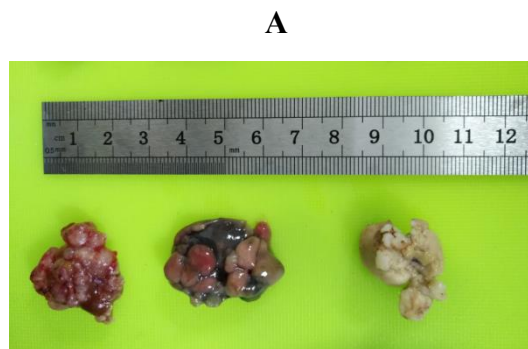

Figure 2. In vivo Bioluminescence assay after operation. (A-B) PLC/PRF/5 and MHCC97-H groups on the 4day post-operation respectively. (C-D) PLC/PRF/5 and MHCC97-H groups on the 14day post-operation respectively.

A

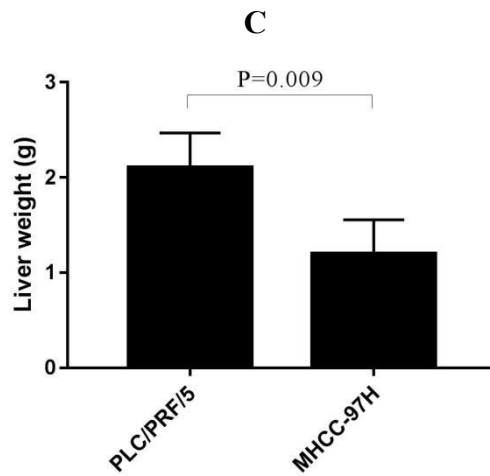

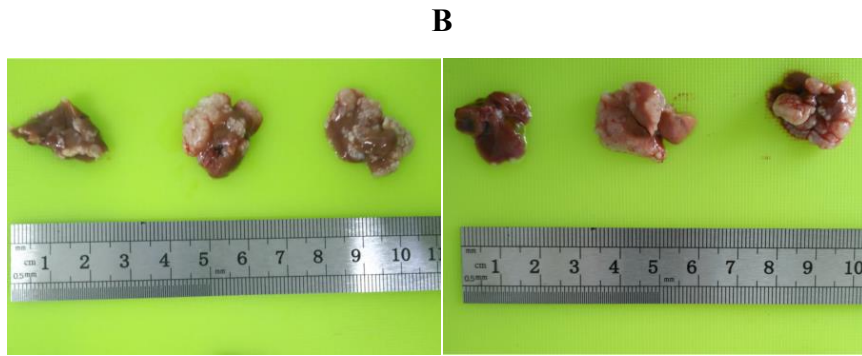

Figure 3. Intrahepatic metastasis of Hepatocellular carcinoma. **(A)** Intrahepatic metastasis lesions of PLC/PRF/5 group. **(B)** Intrahepatic metastasis lesions of MHCC97-H group. **(C)** Comparison of liver weight between two groups.

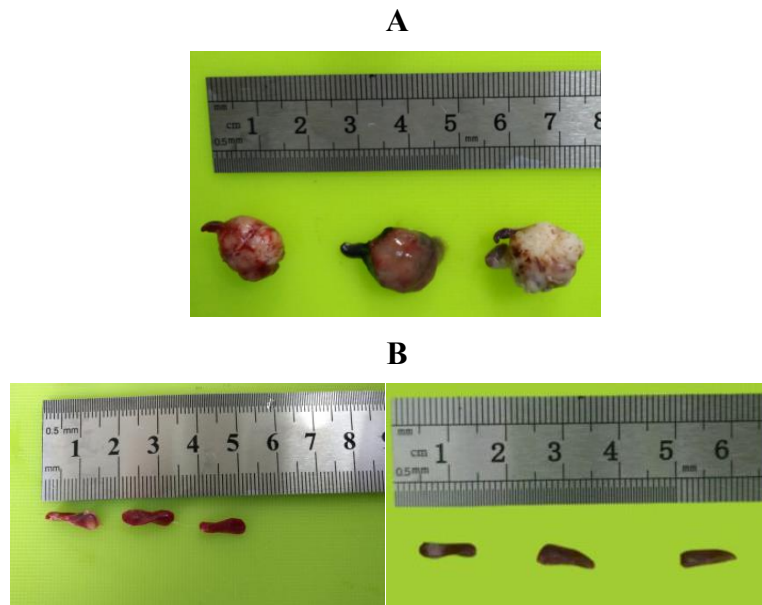

Figure 4. Carcinoma in situ of spleen. **(A)** Spleen orthotopic tumor of PLC/PRF/5 group. **(B)** Spleen orthotopic tumor of MHCC97-H group.
