

JHEP Reports

CTAT methods

Tables for a “Complete, Transparent, Accurate and Timely account” (CTAT) are now mandatory for all revised submissions. The aim is to enhance the reproducibility of methods.

- Only include the parts relevant to your study
- Refer to the CTAT in the main text as ‘Supplementary CTAT Table’
- Do not add subheadings
- Add as many rows as needed to include all information
- Only include one item per row

If the CTAT form is not relevant to your study, please outline the reasons why:

The data utilised in this study was obtained from the West Australian pregnancy cohort (Raine study). The study methods are described in the manuscript text. Additional details about the study can be found online <https://rainestudy.org.au/>

1.1 Antibodies

Name	Citation	Supplier	Cat no.	Clone no.
n/a				

1.2 Cell lines

Name	Citation	Supplier	Cat no.	Passage no.	Authentication test method
n/a					

1.3 Organisms

Name	Citation	Supplier	Strain	Sex	Age	Overall n number
n/a						

1.4 Sequence based reagents

Name	Sequence	Supplier
n/a		

1.5 Biological samples

Description	Source	Identifier
n/a		

1.6 Deposited data

Name of repository	Identifier	Link
n/a		

1.7 Software

Software name	Manufacturer	Version
Statistical software - SPSS statistics	IBM Corp.	20.0

1.8 Other (e.g. drugs, proteins, vectors etc.)

n/a		

1.9 Please provide the details of the corresponding methods author for the manuscript:

Dr Oyekoya Ayonrinde
Department of Gastroenterology and Hepatology, Fiona Stanley Hospital, 11 Robin Warren Drive, Murdoch, 6150, Western Australia, Australia.
+618 61522827
Oyekoya.ayonrinde@uwa.edu.au

2.0 Please confirm for randomised controlled trials all versions of the clinical protocol are included in the submission. These will be published online as supplementary information.
