Data shown as mean +/- standard deviation. Statistical analysis by 1-way ANOVA with Tukey's posthoc test.

*, differs from wt/wt at level of p < 0.05.

**, differs from wt/wt at level of p < 0.01.

***, differs from wt/wt at level of p < 0.001.

****, differs from wt/wt at level of p < 0.0001.

##, differs from wt/SCA34 at level of p < 0.01.
