

SUPPLMENTAL MATERIAL

Movie Legends:

Movie 1: Echocardiography of apical HCM with an aneurysm. Zoomed in view of the apical aneurysm to clearly identify the wall

Movie 2: CMR of apical HCM with a small apical aneurysm. Balanced steady-state free precession (B-SSFP) cine imaging demonstrating increased apical wall thickness with a small apical aneurysm

Movie 3: Apically displaced prominent papillary muscle on echocardiography

Movie 4: Apically displaced prominent papillary muscle on CMR
