

Figure S1. Transfection efficiency of anti-miR-506-3p, HOXA11-AS and Slug in HCC cells. (A) Expression of miR-506-3p was detected by RT-qPCR. (B) Expression of HOXA11-AS was measured by RT-qPCR. (C and D) Protein expression of Slug in HCC cells was measured by western blot analysis. *P<0.05 vs. respective control. HCC, hepatocellular carcinoma.
