

Supplementary Material

A1: FSHR - serous carcinoma

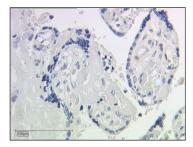

B1: LHCGR - serous carcinoma

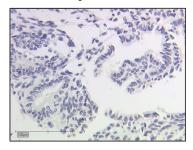

C1: GPER - serous carcinoma

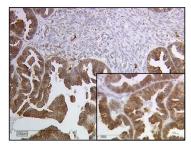

A2: FSHR - negative control

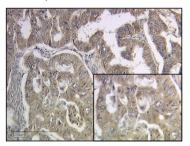

B2: LHCGR - negative control

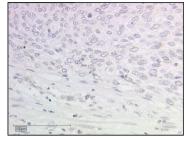

C2: GPER - negative control

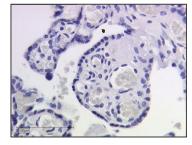

D1: hCGβ - serous carcinoma

D2: hCGβ - negative control

Supplementary Figure 1. Detection of FSHR, LHCGR, GPER and hCG β with immunohistochemistry. (A1) FSHR, (B1) LHCGR, (C1) GPER, (D1) and hCG β in serous ovarian cancer tissue with the corresponding negative controls (A2-D2).
