

Project title: Effect of wheelchair-modified rowing exercise on cardiometabolic risk factors in spinal cord injured wheelchair users

Informed Consent to Participation in a Health Scientific Research Project

Title of the research project: Effect of wheelchair-modified rowing exercise on cardiometabolic risk factors in spinal cord injured wheelchair users

Declaration by the Volunteer

I have received information about the research project both in writing and orally, and I have sufficient knowledge of the objective, method, advantages and disadvantages to confirm my participation.

I know that participation is voluntary and that I can always withdraw my consent without losing my present or future rights to treatment.

I hereby give my consent to participation in the research project and to taking out samples of my biological material for storage in a research bio-bank. I have received a copy of this form and of all written information about the project for my own use.

Name of the Volunteer: _____

Date: _____ Signature: _____

If new, significant health information appears during the research project, you will be informed. If you wish to **decline** receipt of this information, please tick here:

Would you like to be informed of the results of the research project and of the consequences for you, if any?

Yes No (tick the appropriate field)

Declaration by the Person giving Information

I hereby declare that the Volunteer has received information both in writing and orally about the research project.

I believe that the information given is sufficient for making a decision on participation in the research project.

Name of the person giving the information: _____

Date: _____ Signature: _____

Project identification: N-20190053

Standard declaration of consent issued by Den Nationale Videnskabetiske Komité, December 2011.
