

Supplementary material

Assessment of techno-functional and bioactive potential of tomato (*Solanum lycopersicum*) seed

meal

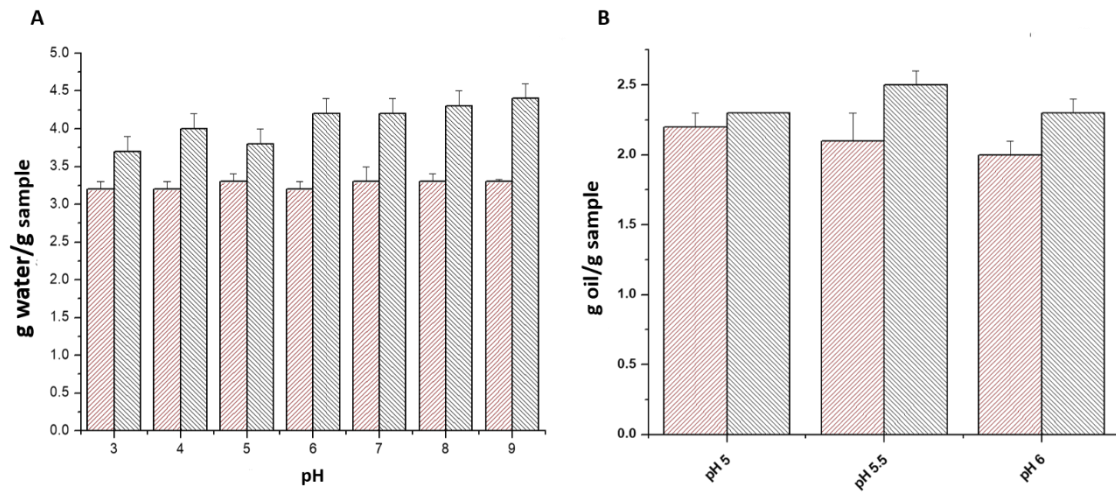

Fig. S1. Holding capacity of fluids. A, Water Holding Capacity; B, Oil Holding Capacity. Red bars are corresponding to TSM sample; gray bars are corresponding to TSMD sample.

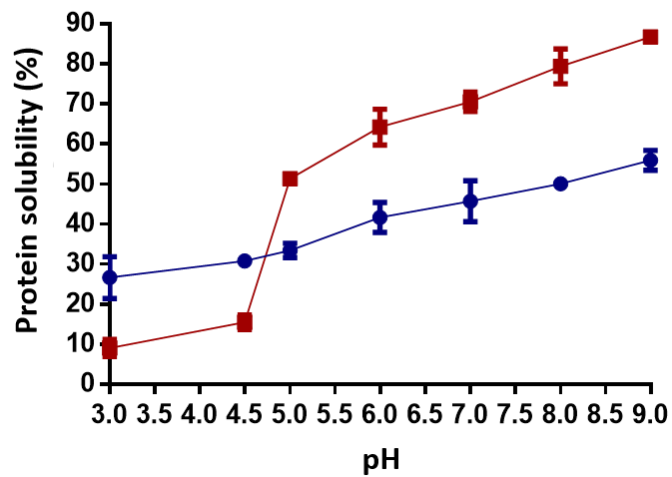

Fig. S2. Protein solubility of tomato seed meal. Blue line, shows protein solubility for TSM sample; red line, shows proteins solubility for TSMD sample.

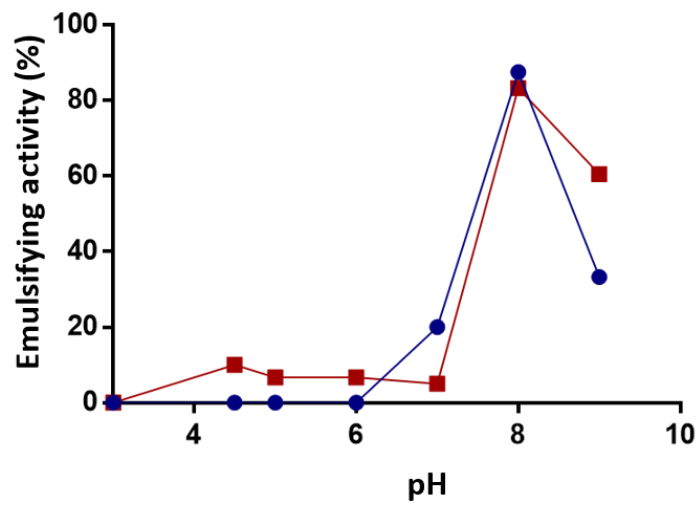

Fig. S3. Emulsifying activity of tomato seed meal. Blue line, shows protein solubility for TSM sample; red line, shows proteins solubility for TSMD sample.
