

Supplementary Table 2. Demographic information for postmortem human samples of cerebellar cortex used in this study.

Health condition	Sex	Sample	Age at death (yo)	Cause of death	CAG repeat sizes
Control individuals	F	C2	48	polycythemia vera	12/25
		C3	83	renal cell carcinoma	12/19
	M	C1	59	sudden cardiac arrest	18/21
		C4	61	cardiac failure	21/25
		C5	73	respiratory failure	25/28
Patients with SCA3	F	P1	59	SCA3-related	21/70
		P2	84		21/66
		P3	48		22/73
		P4	75		19/69
	M	P5	49		12/73
		P6	59		NA/72
