

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/atm-20-2751	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The data will be shared that CTCs result is closely related to the early recurrence of patients with HCC after LT, and patients in the CTC-positive group had a worse prognosis than those in the CTC-negative group.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	One years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Liver transplant and oncology surgeons who are interested in studies of CTC and OLT.
8	For what type of analysis or purpose?	For analysis to evaluate the predictive valuable of CTCs for recurrence in patients with HCC after LT.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: chenzht6@mail2.sysu.edu.cn . or chenmg3@mail.sysu.edu.cn
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
