

Appendix II

TABLE II.1: Average share of costs for households using public healthcare facilities and that reported all 3 types of costs by type of costs (unweighted).

	Average proportion of costs			Number of sets of costs
	Direct medical costs	Direct non-medical costs	Indirect costs	
PNEUMONIA	22%	64%	14%	7
Urban	24%	62%	15%	6
Inpatient care	21%	66%	13%	4
Outpatient care	1%	86%	13%	1
Not distinguished (inpatient/outpatient)	58%	19%	22%	1
Mixed urban/rural	14%	76%	10%	1
Outpatient care	14%	76%	10%	1
GASTROENTERITIS	31%	16%	53%	19
Rural	12%	15%	72%	4
Inpatient care	12%	15%	72%	4
Urban	40%	17%	43%	12
Inpatient care	44%	14%	41%	9
Not distinguished (inpatient/outpatient)	28%	25%	47%	3
Mixed urban/rural	21%	11%	68%	3
Inpatient care	32%	16%	52%	2
Outpatient care	0%	0%	100%	1
MENINGITIS	36%	34%	30%	1
Urban	36%	34%	30%	1
Not distinguished (inpatient/outpatient)	36%	34%	30%	1
Overall	29%	29%	42%	27
Inpatient care	31%	26%	43%	19
Outpatient care	5%	54%	41%	3
Not distinguished (inpatient/outpatient)	36%	26%	39%	5

TABLE II.2: Average share of costs for households using private healthcare facilities and that reported all 3 types of costs by type of costs (unweighted).

	Average proportion of costs			Number of sets
	Direct medical costs	Direct non-medical costs	Indirect costs	
PNEUMONIA	74%	18%	8%	2
Urban	74%	18%	8%	2
Inpatient care	74%	18%	8%	2
GASTROENTERITIS	61%	11%	29%	1
Urban	61%	11%	29%	1
Not distinguished (inpatient/outpatient)	61%	11%	29%	1
Overall	69%	16%	15%	3
Inpatient care	74%	18%	8%	2
Not distinguished (inpatient/outpatient)	61%	11%	29%	1
