

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/jtd-20-930.	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
Yes	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The detailed next-generation sequencing (NGS) and traditional culture results of each patients will be shared. we also found NGS shows outstanding advantages in the diagnosis of bacterial and fungal infections.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol and statistical analysis plan will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique may be updated over time.
7	To whom will you share the data?	Researches who provide a methodologically sound proposal.
8	For what type of analysis or purpose?	For analysis to evaluate the performance of NGS in clinical infectious patients.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: 1206339230@qq.com .
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
