Description of Additional Supplementary Files

File Name: Supplementary Data 1
Description: Cas9 protein identity matrix.

File Name: Supplementary Data 2
Description: List of analysed Cas9 protein, gene, protein, and sgRNA sequences.

File Name: Supplementary Data 3
Description: Position frequency matrices (PFM) of Cas9 ortholog PAM recognition.

File Name: Supplementary Data 4
Description: List of PAM interaction domain sequences and cluster information.

File Name: Supplementary Data 5
Description: Target DNA cleavage patterns produced by Cas9 orthologs.

File Name: Supplementary Data 6
Description: List of Cas9 protein sequences used to construct the phylogenetic tree.

File Name: Supplementary Data 7
Description: Sequences of oligonucleotides and substrates used for this study.
