

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/atm-20-2762a	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The data on CD8+ TIL, PD-L1 expression and survival will be shared.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Medical oncologists and colorectal surgeons.
8	For what type of analysis or purpose?	For analysis to evaluate the tumor immune microenvironment in colorectal cancer liver metastases.
9	How or where can the data/documents be obtained?	The authenticity of this article has been validated by uploading the key raw data onto the Research Data Deposit public platform (www.researchdata.org.cn), with the approval RDD number as RDDA2020001606.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
