

Additional File 7

Distribution of metabolic genes in clusters. The number of metabolic genes in each cluster, along with the % representation in each cluster is shown (actual numbers on top of bars). The list of metabolic genes is from Dreyfuss et al., 2013.

Distribution of transcription factors in clusters. The number of genes encoding a transcription factor in each cluster, along with the % representation in each cluster is shown (actual numbers on top of bars). The list of transcription factor genes is from Carrillo et. al., 2015.
