Max	41	3930	30	11.4	7.4	503	20.1	11.5			
n	10	10	10	10	10	10	10	10			

Abbreviations: ASD, atrial septal defect; BW, birth weight; Diet B, F, or BF refers to breast milk, formula or mix of breast milk and formula, respectively; DBS, dried blood spot; FTT, failure to thrive; GA, gestational age; NBS, newborn screening; PAA, plasma amino acids; RTA, renal tubular acidosis; and SD, standard deviation.

Numbers in red, bold and underlined indicate fulfillment of the combined Ala:Leu \geq 4.0 and Pro:Leu \geq 3.0 criterion (CRC) and also correspond to the red dots in Fig 2A (for NBS DBS) and Fig 2B (for PAA).
