

Data Sharing Statement

Madsen. Effect of School-Based Body Mass Index Reporting in California Public Schools. *JAMA Pediatr*. Published November 16, 2020. 10.1001/jamapediatrics.2020.4768

Data

Data available: Yes

Data types: Deidentified participant data, Data dictionary

How to access data: madsenk@berkeley.edu

When available: With publication

Supporting Documents

Document types: None

Additional Information

Who can access the data: Because parents of study participants were told that only the research team would have access to the data, any researcher desiring access to the data will need to sign a data use agreement, covering the following elements (per our IRB): 1. What the research questions are 2. What data elements are being requested 3. Who will have access to the data 4. What data security measures are/will be in place

Types of analyses: The data will be available for any purpose.

Mechanisms of data availability: Data will be available with a signed data use agreement.
