

Descriptions of Additional Supplementary Files

Supplementary Data 1

Description: Complete list of Type-I transmembrane proteins including the WDD-binding motif in their intracellular domains. Motif identities for all molecules are shown in Supplementary Data 2.

Supplementary Data 2

Description: Motifs identified in the intracellular domains of Type-I transmembrane proteins shown in Supplementary Data 1.

Supplementary Data 3

Description: Complete list of cytokine receptors including the WDDbinding motif in their intracellular domains. Motif identities for each molecules are shown in Supplementary Data 4.

Supplementary Data 4

Description: Motifs identified in the intracellular domains of cytokine receptors shown in Supplementary Data 3.

Supplementary Data 5

Description: List of all human Type-I transmembrane proteins downloaded from the Uniprot server.
