Supplemental Information

**Oncogenic Role of Long Noncoding RNAMALAT1 in
Thyroid Cancer Progression through Regulation
of the miR-204/IGF2BP2/m6A-MYC Signaling**

Mao Ye, Shu Dong, Haitao Hou, Tao Zhang, and Minghai Shen

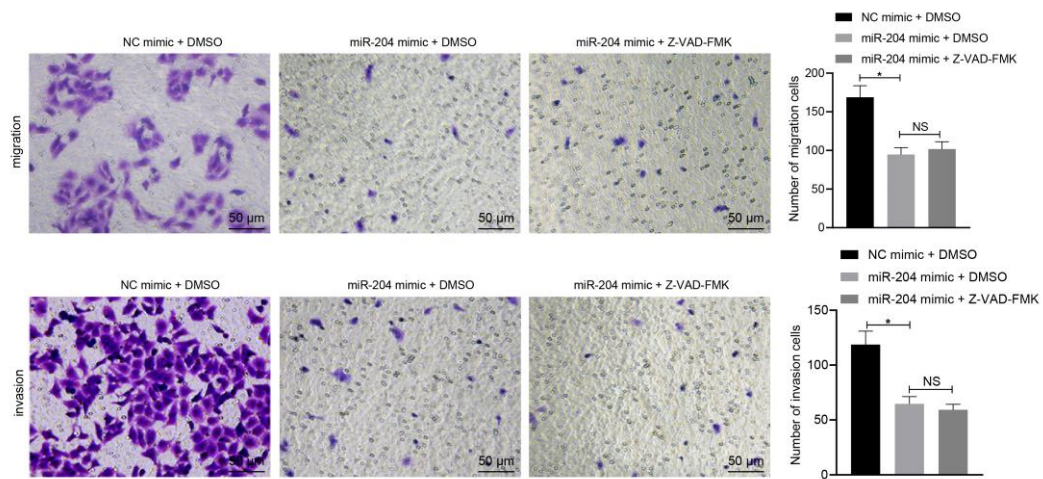

Figure S1 Apoptosis is not involved in the action of miR-204 on TC cell migration and invasion. Cell migration and invasion measured by Transwell assay ($\times 200$). DMSO and Z-VAD-FMK ($50 \mu\text{m}$) was added and cultured with TC cells for 24 h. Data (mean \pm standard deviation) were compared with unpaired t test. The experiment was repeated 3 times independently. * $p < 0.05$.
