Description of Additional Supplementary Files

File Name: Supplementary Data 1 - 4 (zip file)

Description: This .zip file contains the following Supplementary Data files:

Supplementary Data 1: Ranked list containing the top 100 features associated with each cell type, from sensitivity analysis of the multiclass logistic regression

Supplementary Data 2: Ranked list containing the top 100 features associated with each cell type, from sensitivity analysis of the artificial neural network

Supplementary Data 3: Results from Gene Ontology analysis of features listed in Supplementary Data 2

Supplementary Data 4: Results from Gene Ontology analysis of features listed in Supplementary Data 1
