

S6 Table. Results of the analysis of molecular variance (AMOVA) performed for the *V. floribundum* genetic clusters that were identified in the population structure analysis ($P=0.001$).

Source	Df	Sum Sq	Mean Sq	Est. Var.	%
Between clusters	3	159.61	53.20	1.92	21.36%
Within clusters	96	677.47	7.06	7.06	78.64%
Total	99	837.08		8.98	100%
