

## Data Sharing Statement

<b>Article Info</b>	<a href="http://dx.doi.org/10.21037/atm-20-2002">http://dx.doi.org/10.21037/atm-20-2002</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The sequencing data of circRNAs, miRNAs and mRNAs in A549, A549-R11 AND H1299 cells will be shared.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol and statistical analysis plan will also be shared if requested.
5	When will data availability begin?	From the publication data.
6	When will data availability end?	Two years within the publication data, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Radiobiologist and medical oncologists who are interested in studies of biomarker of radiosensitivity.
8	For what type of analysis or purpose?	For analysis to evaluate the radiotherapy response of X-rays and carbon ions in NSCLC.
9	How or where can the data/documents be obtained?	Emails could be sent the address below to obtain the shared data: jinxd@impcas.ac.cn.
10	Any other restrictions?	We may balance the potential benefits and risks foreach request and then provide the data that could be shared.
