

Figure S1 Specific siRNA targeting LINC00844 (A,B) and LINC00844 lentivirus (C,D) were respectively used to inhibit or upregulate LINC00844 expression. (E) The expressional level of lincRNA00844 in a panel of HCC cell lines. (F) The expression patterns of lincRNA00844 in TCGA HCC dataset. LINC00844, long non-coding RNA00844; HCC, hepatocellular carcinoma; TCGA, The Cancer Genome Atlas.
