

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/atm-20-6314	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Original data of creatinine, urea nitrogen, sNGAL and uNGAL concentrations and uNCR changes in ischemia-reperfusion models.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, Ethical approval, and study protocol will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the NGAL value may be updated over time.
7	To whom will you share the data?	Researchers who are interested in studies of AKI or NGAL in canine model.
8	For what type of analysis or purpose?	To evaluate the role of NGAL in the diagnosis of acute kidney injury.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: nt_caoj@163.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
