Supplement. Survey data collected

Record ID	
Date	
Unreachable	Yes/No
Date of test	
Testing center	
Hospitalization	Yes/No
Date of hospitalization	
Date of symptoms onset	
Risk factors (Yes/No, multiple options possible)	Cardiovascular disease Hypertension Diabetes Chronic respiratory disease Cancer Immunosuppression Other chronic disease Pregnancy
Symptoms (Yes/No, multiple options possible)	Cough Dyspnea Fever (T >38C) Fatigue Myalgias, arthralgias Headache Rhinorrhea Odynodysphagia Anosmia/agueusia Abdominal pain Nausea/vomiting Diarrhea Other
Deteriorating clinical symptom	Yes/No
Orientation (only one option possible)	Follow-up every 2 days Follow-up every day End of follow-up
Reason for end of follow-up (multiple options possible)	Followed by primary care Physician Patient's wish Death Out of canton Clinical recovery Lost to follow-up (unreachable for 2 consecutive days)
D30-45 assessment	
Date of assessment	
Unreachable	
Hospitalization	Not hospitalized Hospitalized for COVID-related reasons Hospitalized for non-COVID-related reasons
Current symptoms	Yes/No
List symptoms (Yes/No, multiple options possible)	Fatigue Loss of appetite Myalgias

	Arthralgias Back pain Fever > 38C Cough Dyspnea Chest pain Palpitations Headache Paresthesias Anosmia Agueusia Odynodysphagia Nausea Vomiting Diarrhea Abdominal pain Rash
Current symptom intensity (one option possible)	Mild Moderate Severe
Symptom evolution (one option possible)	Never disappeared Recurred Fluctuates
Most predominant symptom (one option possible)	Fatigue Loss of appetite Myalgias Arthralgias Back pain Fever > 38C Cough Dyspnea Chest pain Palpitations Headache Paresthesias Anosmia Agueusia Odynodysphagia Nausea Vomiting Diarrhea Abdominal pain Rash
Most worrisome symptom (one option possible)	Fatigue Loss of appetite Myalgias Arthralgias Back pain Fever > 38C Cough Dyspnea Chest pain Palpitations Headache Paresthesias

	Anosmia Agueusia Odynodysphagia Nausea Vomiting Diarrhea Abdominal pain Rash
If back pain, specify:	Few days Most days All days
If fatigue, specify:	Normal activity, no limitations in daily activity Limited activity but capable to do light work (office work, cleaning) Limited activity but <50% in bed during the day >50% in bed, but not bedbound Bedbound
If dyspnea, specify	Dyspnea only with strenuous exercise Dyspnea when hurrying or walking up a slight hill Has to stop for breath when walking at own pace on flat surface Stops for breath after walking 90 meters or after a few minutes Too breathless to leave house or breathless when dressing
