**Integrated Bio-Behavioral Survey (IBBS) 2016:
Female Entertainment Workers (FEW)**

Informed Consent and Voluntary Participation

I have read and explained the Informed Consent document to the participant. She understands the process of the study, objectives, potential risks, and benefits and that her participation in the study is voluntary. The participant explained the study activities back to me, and I believe that she understood what is going to happen in this study. She gives her informed consent verbally.
