

Supplementary Material

Supplementary Figure 1. Box plots of genes with statistically insignificant differential gene expression in the prospective PCa urine cohort (n=202). Box plot of expression of *CDK1* (A), *EZH2* (B), *PCA3* (C), *ANXA3* (D), and *GSTP1* (E). Normalized mRNA level -Cts is defined as $-\text{Ct}(\text{sample})/\text{Ct}(\text{actin}) * 1000$.
