Subject No.	dpi	RUL	RML	RLL	LUL	LML	LLL	Lung Gross Score
AGM-1	5	0	0	3	0	0	4	1.750
AGM-2	5	0	1	3	0	0	2	1.375
AGM-3	5	0	0	1	1	2	3	1.375
AGM-4	57/22	0	0	1	1	1	1	0.750
AGM-5	57/22	1	1	1	0	1	2	1.125
AGM-6	57/22	0	1	1	1	1	1	0.875

Table S1. Gross lung lesion severity scores in AGMs infected with SARS-CoV-2.
Lung lesions were interpreted by a board-certified veterinary pathologist and scored
according to the following criteria: 0 (0% of lobe affected), 1 (1-25% of lobe affected), 2
(26-50% of lobe affected), 3 (51-75% of lobe affected), 4 (76-100% of lobe affected).
The following formula was used to calculate the mean gross score: [(RUL + RML +
LUL+ LML) /4 + (RLL + LLL)/2]/2 = Gross score. Abbreviations: RUL (right upper
lobe); RML (right median lobe); RLL (right lower lobe); LUL (left upper lobe); LML
(left median lobe); LLL (left lower lobe); dpi (days post-infection).
