SL-0498	vesicle		
SL-0499	extracellular vesicle	Vesicle.	
SL-0500	extracellular vesicle membrane	Membrane.	Extracellular

## o common subcellular locations

Description	Mapped to IF common set	Mapped to IHC
The fraction of the cell membrane at the	plasma membrane	plasma membrane
The fraction of the cell membrane at the	plasma membrane	plasma membrane
The basal cell membrane is the fraction of	plasma membrane	plasma membrane
The basolateral cell membrane is the	plasma membrane	plasma membrane
The portion of the plasma membrane at the	plasma membrane	plasma membrane
The cell junction is a cell-cell or cell-	cell junctions	plasma membrane
The cell membrane is the selectively	plasma membrane	plasma membrane
The centrosome is a microtubule organizing	centrosome	cytoplasm
The cornified envelope is a structure which	plasma membrane	plasma membrane
The cytoplasm is the content of a cell	cytosol	cytoplasm
The cytoplasmic vesicles mediate vesicular	vesicles	cytoplasm
The membrane surrounding a cytoplasmic	vesicles	cytoplasm
The cytoplasmic vesicle compartment bounded	vesicles	cytoplasm
The cytoskeleton is a dynamic three-	cytoskeleton	cytoplasm
The cytosol is the unstructured aqueous	cytosol	cytoplasm
The membrane surrounding the early	endosomes	cytoplasm
Early endosomes form a tubulovesicular	endosomes	cytoplasm
The membrane surrounding the endosome.	endosomes	cytoplasm
Endosomes are highly dynamic membrane	endosomes	cytoplasm
The membrane surrounding the late	endosomes	cytoplasm
Late endosomes are pleiomorphic with	endosomes	cytoplasm
The endosomal compartment bounded by the	endosomes	cytoplasm
The membrane surrounding the recycling	endosomes	cytoplasm
The recycling endosome is a membrane	endosomes	cytoplasm
The endoplasmic reticulum (ER) is an	endoplasmic reticulum	cytoplasm
The lumen of the endoplasmic reticulum (ER)	endoplasmic reticulum	cytoplasm
The membrane surrounding the endoplasmic	endoplasmic reticulum	cytoplasm
The rough endoplasmic reticulum (RER) is	endoplasmic reticulum	cytoplasm
The rough endoplasmic reticulum lumen is	endoplasmic reticulum	cytoplasm
The membrane surrounding the rough	endoplasmic reticulum	cytoplasm
The membrane surrounding the smooth	endoplasmic reticulum	cytoplasm
The sarcoplasmic reticulum (SR) is a highly	endoplasmic reticulum	cytoplasm
The lumen of the sarcoplasmic reticulum is	endoplasmic reticulum	cytoplasm
The membrane surrounding the sarcoplasmic	endoplasmic reticulum	cytoplasm
The ER-Golgi intermediate compartment is a	endoplasmic reticulum	cytoplasm
The membrane surrounding the ER-Golgi	endoplasmic reticulum	cytoplasm
The ERGIC compartment bounded by the ERGIC	endoplasmic reticulum	cytoplasm
A collection of membranous structures	endoplasmic reticulum	cytoplasm
Focal adhesions are sites of tightest	focal adhesion sites	plasma membrane
The Golgi apparatus is a series of	golgi apparatus	cytoplasm
The Golgi lumen consist of the cisternal	golgi apparatus	cytoplasm
The membrane surrounding the Golgi	golgi apparatus	cytoplasm
The lipid droplet is a dynamic cytoplasmic	lipid droplets	cytoplasm
The lumen of a lysosome is the volume	lysosomes	cytoplasm
The membrane surrounding a lysosome.	lysosomes	cytoplasm
The lysosome is a membrane-limited	lysosomes	cytoplasm
The membrane surrounding a melanosome.	endoplasmic reticulum	cytoplasm
The melanosome is a melanin-containing	endoplasmic reticulum	cytoplasm
A membrane is a lipid bilayer which	plasma membrane	plasma membrane
The membrane surrounding the microsomes.	endoplasmic reticulum	cytoplasm
The microsomes are a heterogenous set of	endoplasmic reticulum	cytoplasm
The mitochondrial envelope comprises the	mitochondria	cytoplasm
The inner membrane of a mitochondrion is	mitochondria	cytoplasm
The mitochondrial intermembrane space is	mitochondria	cytoplasm

The matrix of a mitochondrion is the	mitochondria	cytoplasm
The membrane surrounding a mitochondrion.	mitochondria	cytoplasm
The outer membrane of a mitochondrion is	mitochondria	cytoplasm
The mitochondrion is a semiautonomous, self-	mitochondria	cytoplasm
The myelin membrane is the white matter	plasma membrane	plasma membrane
The nuclear envelope is a membrane system	nuclear membrane	nucleus
The inner membrane of the nucleus is the	nuclear membrane	nucleus
The nuclear lamina is a meshwork of	nuclear membrane	nucleus
The nuclear matrix is a three-dimensional	nucleoplasm	nucleus
The membrane surrounding the nucleus. This	nuclear membrane	nucleus
The outer membrane of the nucleus is the	nuclear membrane	nucleus
The nuclear speckles are small subnuclear	nuclear speckles	nucleus
The nucleolus is a non-membrane bound	nucleoli	nucleus
The nucleoplasm is a highly viscous liquid	nucleoplasm	nucleus
The nucleus is the most obvious organelle	nucleoplasm	nucleus
The perikaryon is the cell body of a	cytosol	cytoplasm
The matrix of a peroxisome is the area	peroxisomes	cytoplasm
The membrane surrounding a peroxysome.	peroxisomes	cytoplasm
The peroxisome is a small eukaryotic	peroxisomes	cytoplasm
The pre-autophagosomal structure is the	endoplasmic reticulum	cytoplasm
The membrane surrounding the pre-	endoplasmic reticulum	cytoplasm
The membrane surrounding the prevacuolar	endoplasmic reticulum	cytoplasm
Protein located outside the cell		
The spindle is a specialized microtubule	mitotic spindle	cytoplasm
The membrane surrounding a vacuole.	vesicles	cytoplasm
The vacuole is a generally large fluid-	vesicles	cytoplasm
The virion is the complete fully infectious	cell junctions	plasma membrane
A cell projection is a cell protrusion such	cell junctions	plasma membrane
Protein found in or associated with	cytosol	cytoplasm
The membrane surrounding a cytoplasmic	cytosol	cytoplasm
The cytoplasmic granule compartment bounded	cytosol	cytoplasm
The outermost side of the cell.	cell junctions	plasma membrane
Membrane rafts are small (10-200 nm),	endoplasmic reticulum	cytoplasm
The target cell membrane is the selectively	plasma membrane	plasma membrane
The inner segment of a vertebrate	mitochondria	cytoplasm
In fungal, amoeboid and animal cells,	cleavage furrow	plasma membrane
An organized structure composed of a single	nucleoplasm	nucleus
The midbody is the central region of the	midbody	cytoplasm
The midbody ring is the central region of	midbody ring	cytoplasm
Inflammasomes are supramolecular micron-	cytosol	cytoplasm
A vesicle is a small structure consisting	vesicles	cytoplasm
Extracellular vesicles are vesicles that	vesicles	plasma membrane
The membrane surrounding an extracellular	vesicles	plasma membrane
