

Figure S1. Effect of AdoMet on cell cycle regulatory proteins in HCT 116^{p53-/-} and uL3ΔHCT 116^{p53-/-} colon cancer cells. The cropped blots are used in the main figure (Figure 3).

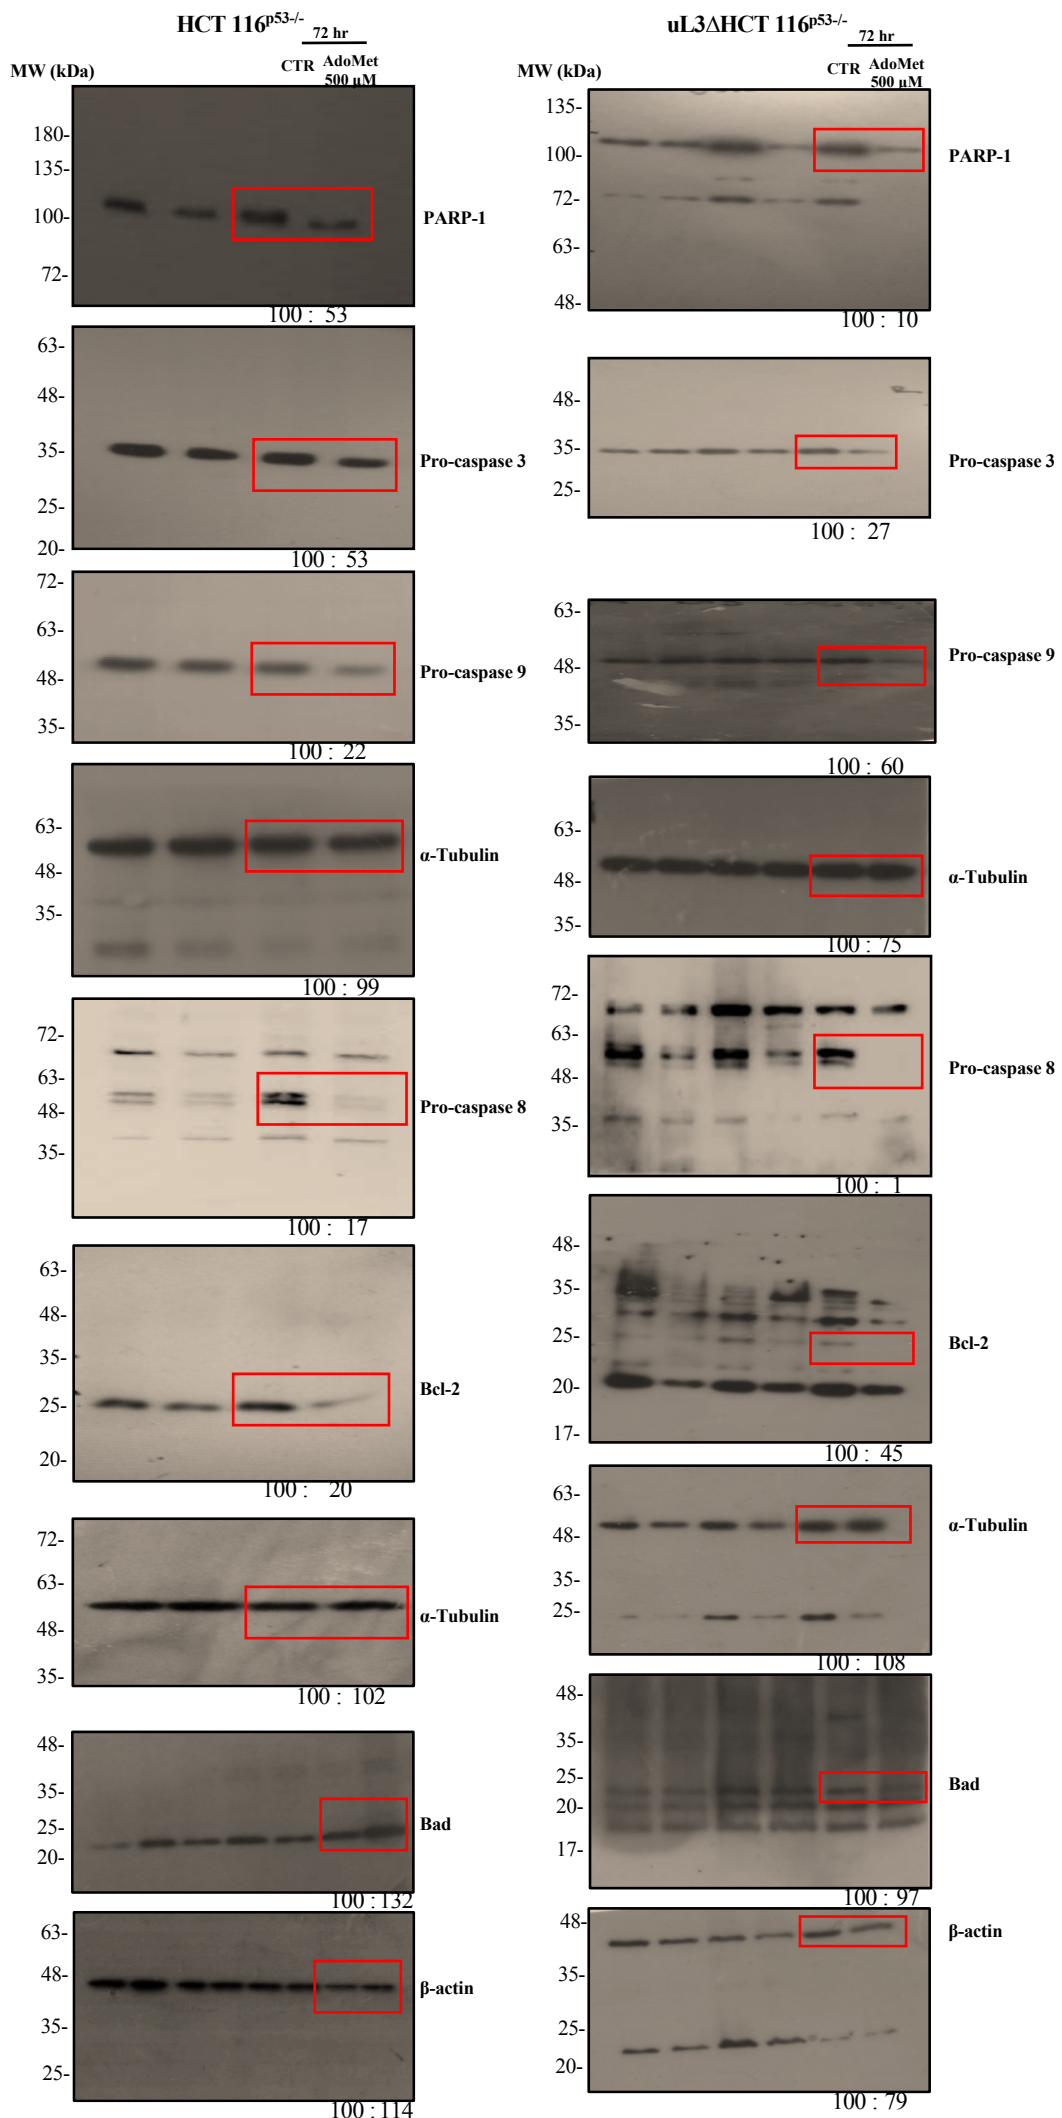

Figure S2. Effect of AdoMet on apoptosis in HCT 116^{p53-/-} and uL3ΔHCT 116^{p53-/-} colon cancer cells. The cropped blots are used in the main figure (Figure 4).

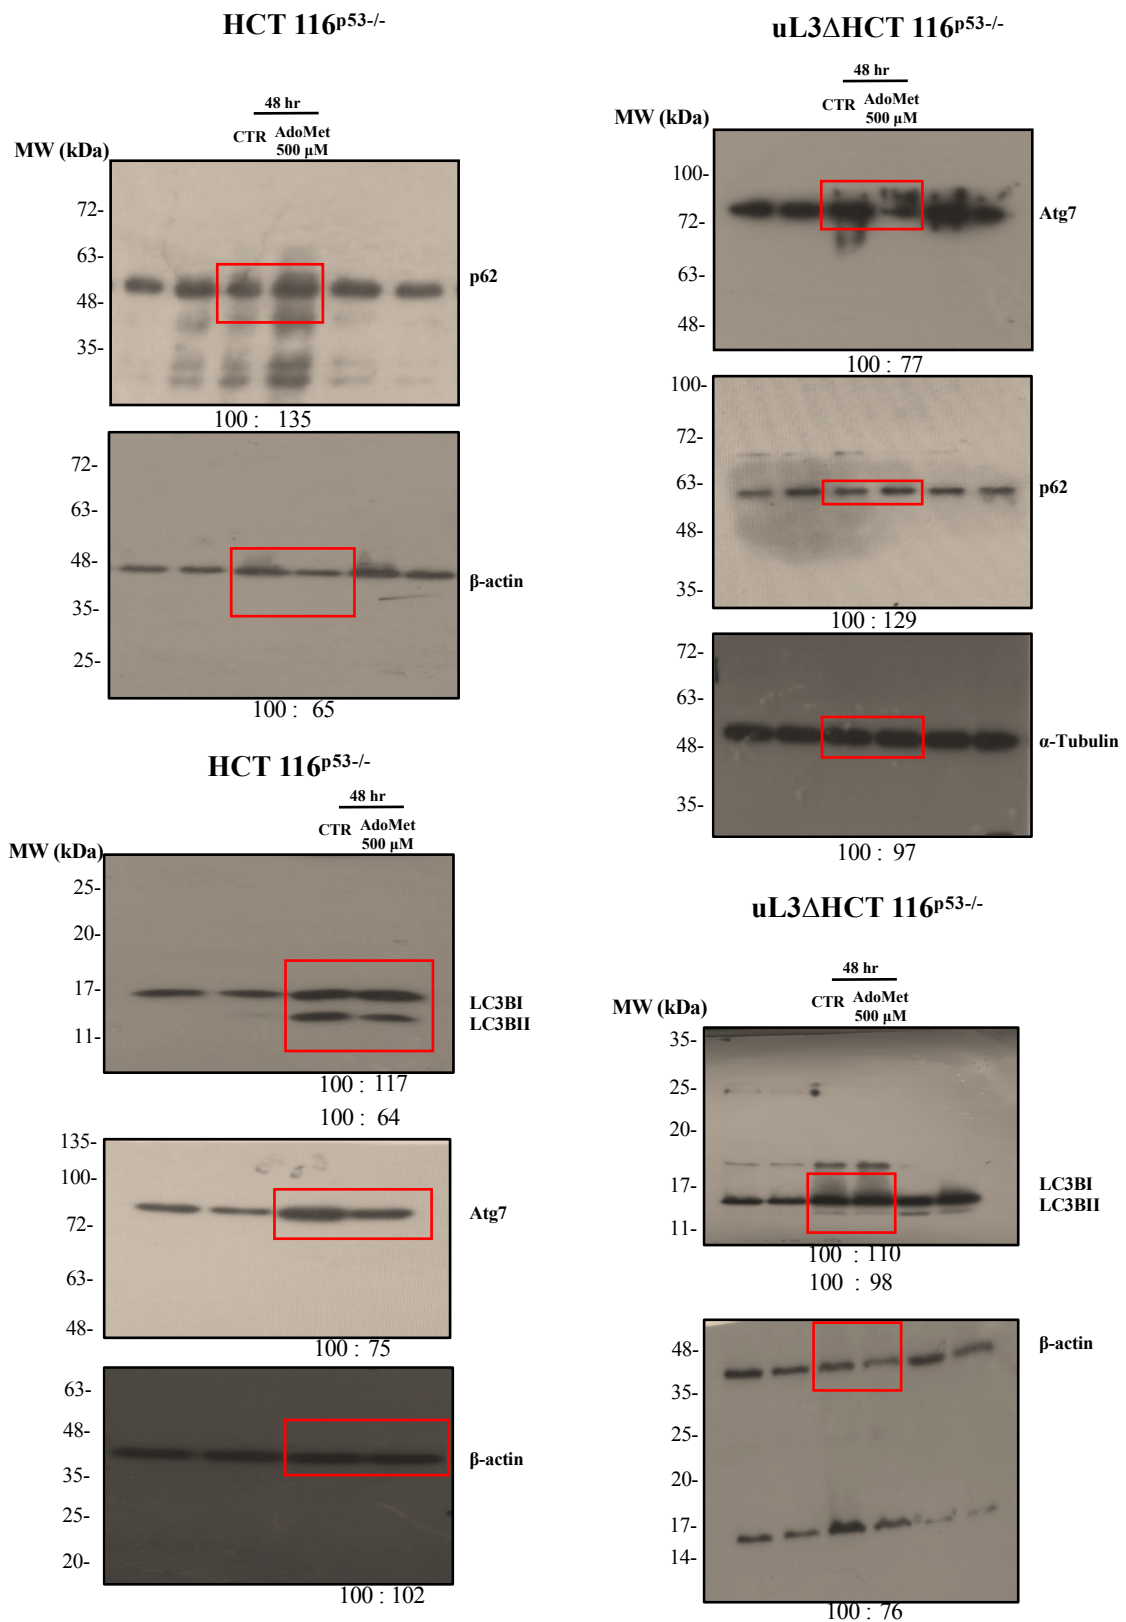

Figure S3. Effect of AdoMet on the autophagy related markers in HCT 116^{p53-/-} and uL3ΔHCT 116^{p53-/-} colon cancer cells. The cropped blots are used in the main figure (Figure 6).
