Moderate or severe liver disease	radio	Yes (4 Pts.) No
Metastatic solid tumor	radio	Yes (6 Pts.) No
AIDS/HIV	radio	Yes (4 Pts.) No
Inclusion criteria		
Planned elective partial pancreatoduodenectomy for any indication	radio	Yes No
Patient equally suitable for both RPD and OPD as judged by the treating pancreatic surgeon	radio	Yes No
Age \geq 18 years	radio	Yes No
Ability of subject to understand character and individual consequences of the clinical trial	radio	Yes No
Written informed consent	radio	Yes No
if yes: Date of written informed consent	date	
Exclusion criteria		
Borderline or non-resectable carcinomas of the pancreatic head as defined by the National Comprehensive Cancer Network guidelines	radio	Yes No
Distant metastases	radio	Yes No
American Society of Anaesthesiologists (ASA) Score > 3	radio	Yes No
Participation in another interventional trial with interference of intervention and outcome of this trial	radio	Yes No
Expected lack of compliance or language problems	radio	Yes No
Patient reported outcome		
SF-36 completed	radio	Yes No
QoR-15 completed	radio	Yes No
