

Breast arterial calcifications (BAC) reporting survey

*Required

1. Are you:

Mark only one oval.

- Female
- Male
- Prefer not to answer

2. Your age is: *

Mark only one oval.

- <30 years
- 30-39 years
- 40-49 years
- 50-59 years
- 60-69 years
- >70 years

3. In what country do you work? *

4. Are you based in: *

Mark only one oval.

- Academic Hospital
- Community Hospital
- Private Hospital
- Private Practice
- Other

5. What is your current position? *

Mark only one oval.

- Radiologist
- Fellow\PhD
- Resident
- Other

6. How many years of experience do you have in breast imaging? *

Mark only one oval.

- <2 years
- 2-5 years
- 6-10 years
- 11-20 years
- >20 years

7. How many years of experience do you have in reading mammography? *

Mark only one oval.

- <2 years
- 2-5 years
- 6-10 years
- 11-20 years
- >20 years

8. Are you a population-based screening reader? *

Mark only one oval.

- Yes
- No

9. How many mammograms do you read per year? *

Mark only one oval.

- <500
- 500-999
- 1000-1999
- 2000-2999
- 3000-3999
- 4000-4999
- >5000

10. What percentage of your time is dedicated to breast imaging? *

Mark only one oval.

- 100%
- 80-99%
- 60-79%
- 40-59%
- 20-39%
- <20%

11. Have you heard about the association between BAC on mammography and cardiovascular risk? *

Mark only one oval.

- Yes
- No

12. Do you report on BAC in diagnostic mammography reports? *

Mark only one oval.

- Yes
- No

13. How do you report BAC?

Mark only one oval.

- I ignore BAC
- I only report their presence
- I distinguish between a low or extensive BAC burden
- I use more than two BAC burden levels (e.g. minimal, mild, moderate, severe)
- Quantitative scale, based on human measurement
- Computer-based quantitative scale

14. Do you assess the progression of BAC comparing current to previous mammograms?

Mark only one oval.

Yes

No

15. If you see BAC, do you orally inform the woman?

Mark only one oval.

Yes

No

Only if I evaluate the BAC burden/progression as severe

16. If you see severe BAC burden or progression, do you ask the woman for personal and family history of cardiovascular disease/events?

Mark only one oval.

Yes

No

17. If you see severe BAC burden or progression in comparison to previous mammograms, do you refer the woman for a cardiology visit?

Mark only one oval.

Yes

No

18. Any suggestions or comments (general or referred to specific questions)?
