Supplementary Table S2. Preliminary zooarchaeological results from PPNA contexts at Gusir Höyük, showing taxa with clear habitat preferences (NISP=Number of Identified Specimens; Habitat codes: M=mountain; G=Grassland; W=woodland; Wet/Aq=wetland/aquatic).

Habitat	Taxon	NISP
M	Wild goat, <i>Capra aegagrus</i>	334
G	Wild sheep, <i>Ovis orientalis</i>	768
G	Brown hare, <i>Lepus europaeus</i>	3
G	Chukar & Grey partridge, <i>Alectoris chukar</i> & <i>Perdix perdix</i>	438
W	Aurochs, <i>Bos primigenius</i>	327
W	Red deer, <i>Cervus elaphus</i>	1392
W	Roe deer, <i>Capreolus capreolus</i>	19
W	Wild boar, <i>Sus scrofa</i>	501
W	Brown bear, <i>Ursus arctos</i>	5
Wet/Aq	Beaver, <i>Castor fiber</i>	3
Wet/Aq	Common crane, <i>Grus grus</i>	1
Wet/Aq	White-tailed eagle, <i>Haliaeetus albicilla</i>	1
Wet/Aq	Fish	126
Wet/Aq	<i>Unio</i> shell	7

Supplementary Data File S1 (.xlsx file). Radiocarbon dates from the Gusir Höyük excavation grid squares sampled for charred plant remains.

Supplementary Data File S2 (.xlsx file). Counts of charred plant remains retrieved from each sampled excavation grid square at Gusir Höyük, grouped by chronological phase and context type.

Supplementary Data File S3 (.xlsx file). Measurements of *Triticum* accessions - All specimens sourced from the John Innes Centre Germplasm Resource Unit (GRU) (Norwich, UK).

Supplementary Data File S4 (.xlsx file). Archaeological charred *Triticum* measurements from Gusir Höyük (GSR) and Çayönü (CAY).

Supplementary Data File S5 (.xlsx file). Archaeological charred *Triticum* grain measurements used in PCA, including missMDA imputed length measurements of incomplete Gusir Höyük grains.

Supplementary Data File S6 (.xlsx file). PCA results of the *Triticum* accessions measurements.

Supplementary Data File S7 (.xlsx file). PCA results of the archaeological charred *Triticum* measurements.

Supplementary Data File S8 (.xlsx file). Mean, minimum and maximum values and standard deviations of length, breadth and height measurements for each modern *Triticum* accession and the archaeological specimen groups.
