

SUPPLEMENTARY MATERIALS

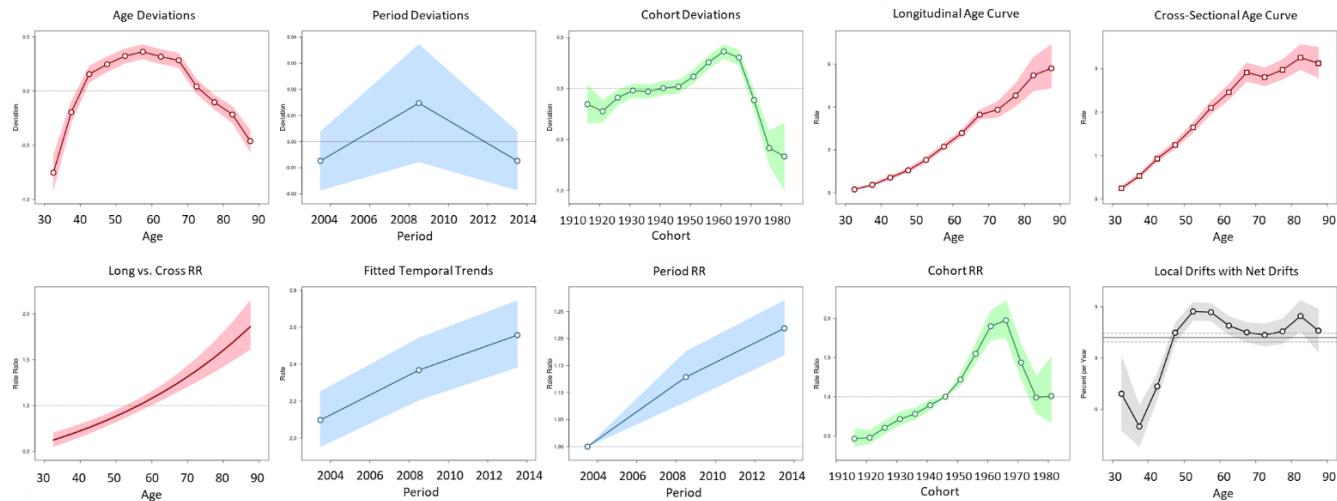

Supplementary Figure 1. Diagram depicting the sample flow of the study population

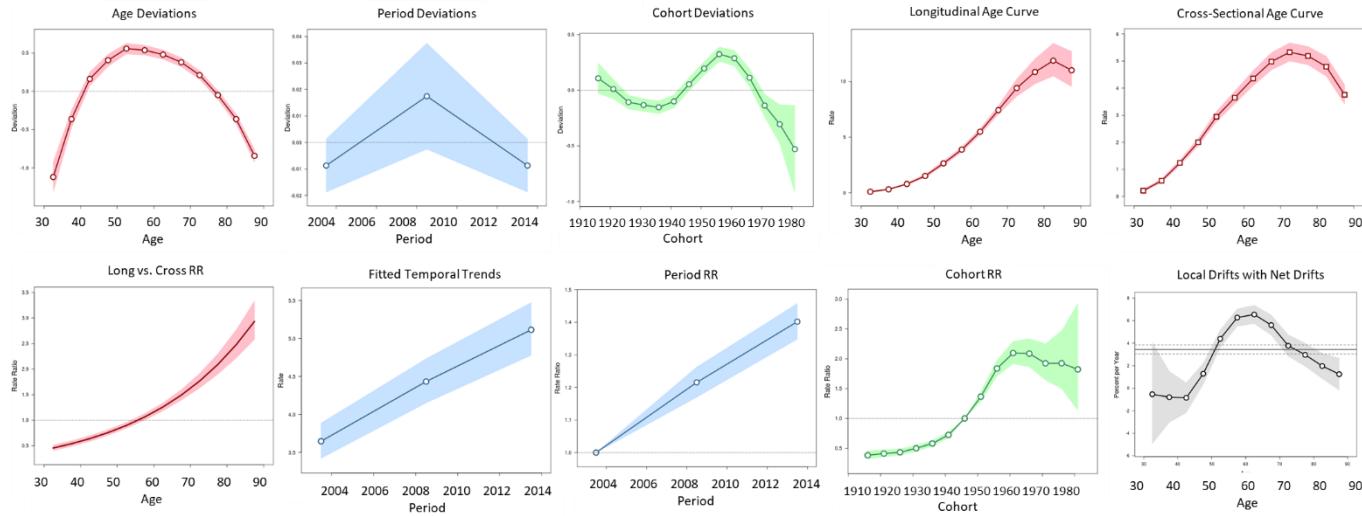

Supplementary Figure 2. Age-specific incidence rates* of squamous cell carcinoma of the anus by race and cohort year of birth: NPCR and SEER (2001-2015). Age-specific incidence rates of squamous cell carcinoma of the anus based on cohort year of birth in 15 5-year birth cohorts between 1916 and 1990. Each point represents a different birth cohort and the lines connect birth cohorts of similar age. Panels A, B, C, D, E, and F show incidence rates among Non-Hispanic White men, Non-Hispanic White women, Non-Hispanic Black men, Non-Hispanic Black women, Hispanic men, and Hispanic women, respectively.

* Rates were calculated as number of cases per 100 000 person-years and age adjusted to the 2000 US standard population

A. Non-Hispanic White Men

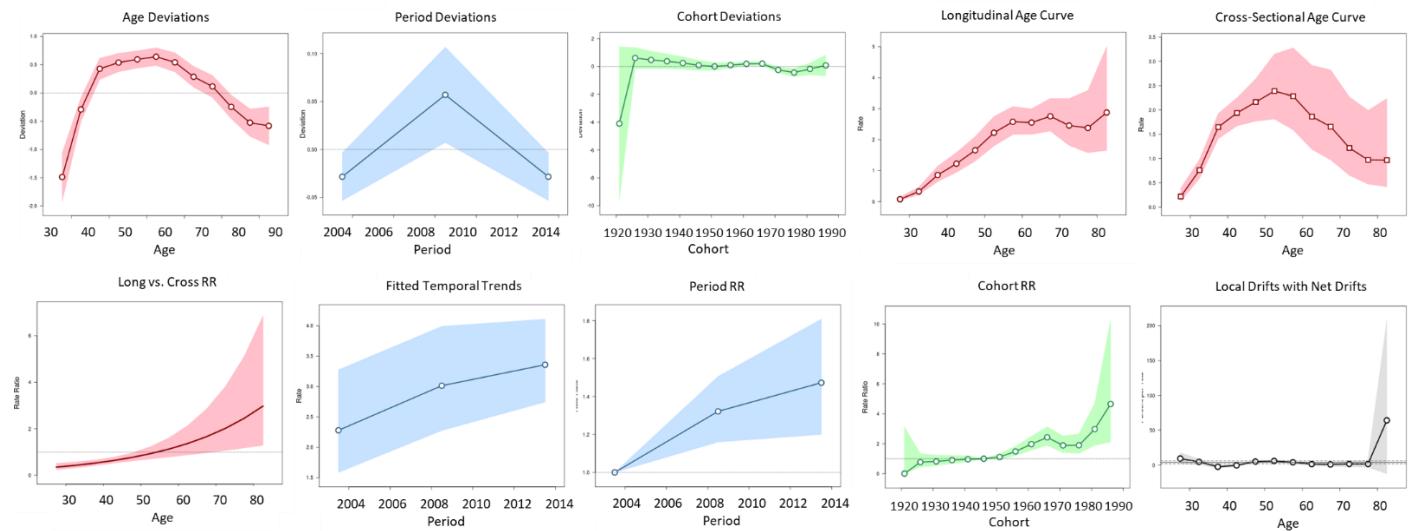

B. Non-Hispanic White Women

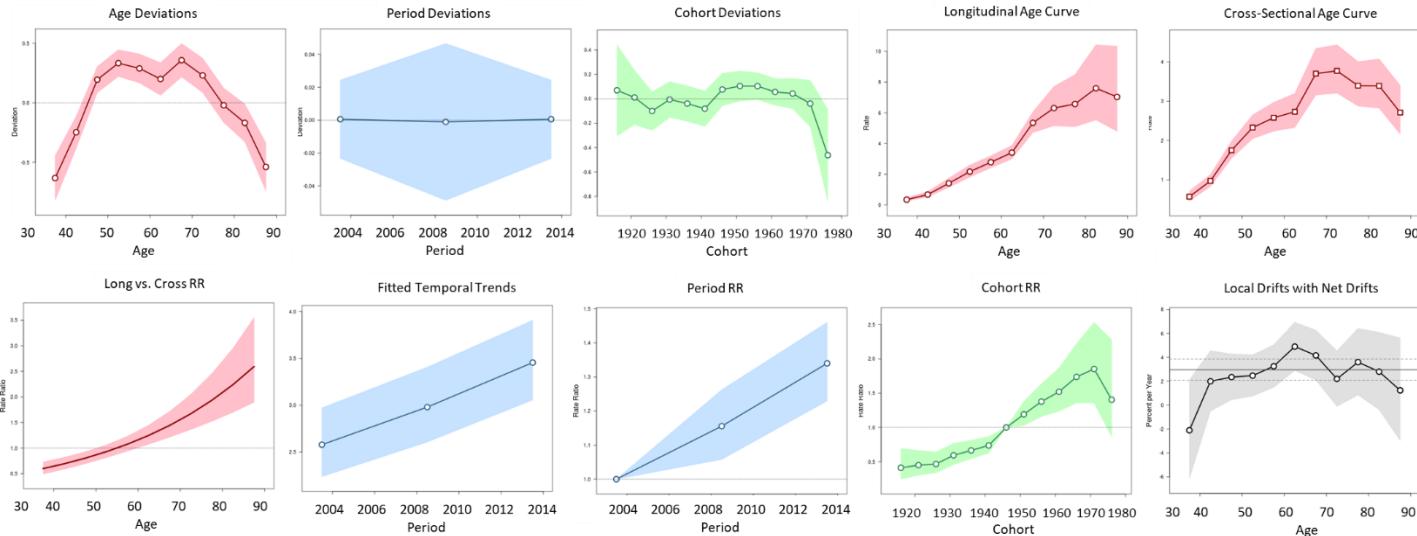

Supplementary Figure 3. Age-specific incidence rates of squamous cell carcinoma of the anus by race and cohort year of birth: NPCR and SEER (2001-2015).

C. Non-Hispanic Black Men

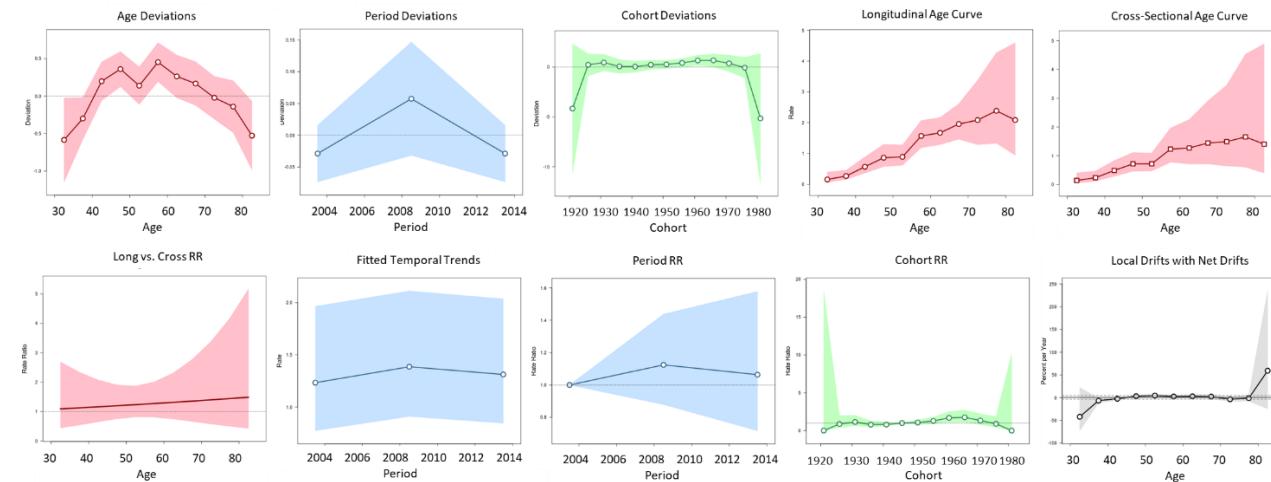

D. Non-Hispanic Black Women

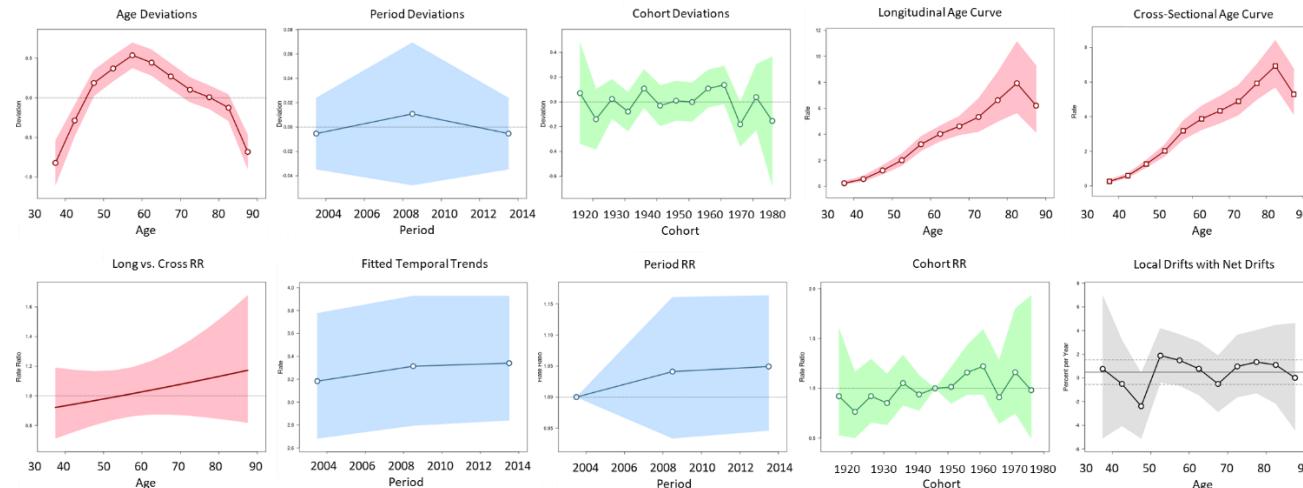

Supplementary Figure 3 (continued). Age-specific incidence rates of squamous cell carcinoma of the anus by race and cohort year of birth: NPCR and SEER (2001-2015).

D. Hispanic Men

D. Hispanic Women

Supplementary Figure 3 (continued). Age-specific incidence rates of squamous cell carcinoma of the anus by race and cohort year of birth: NPCR and SEER (2001-2015)
