

Description of Additional Supplementary Files

File Name: Supplementary Data 1

Description: Oxford Nanopore reads for LAI molecule 1 (M1). File contains 114 Oxford Nanopore mtDNA reads that were assigned to M1 based on a 5% difference cut off (see Methods: Oxford Nanopore data and evaluation of LAI). File is in fasta format.

File Name: Supplementary Data 2

Description: Oxford Nanopore reads for LAI molecule 2 (M2). File contains 32 Oxford Nanopore mtDNA reads that were assigned to M2 based on a 5% difference cut off (see Methods: Oxford Nanopore data and evaluation of LAI). File is in fasta format.
