Renata,

None of the Table contents requires permission. The data from guidelines or from published articles are all properly cited.

Sincerely,

Jan A. Staessen

MS TITLE: Starting Antihypertensive Treatment with Combination Therapy: Con Side of the Argument

Dear Prof. Staessen,

Thanks for sending your files. We only needed corrections for figure 3. Also, we still need information about table permission as it follows:

- Legends of table 1 and supplemental tables refers to several references in the text of the manuscript. Please provide permission to reprint or include a statement that permission is not necessary (and why) by e-mail.

Sincerely,

Renata Gil
Hypertension Editorial Office

///

Renata,

You requested all Figures in EPS format, but the website only allowed me to upload Figure 3.

Attached to this email, you will find:

- The cover letter;
- The permission to reproduce Figure 2 and 3 - not needed for Figure 1 (see Cover Letter);
- Figures 1 and 2 in EPS format.

Kind regards,

Jan A. Staessen
