

S2 Fig Association between *TRHDE* SNPs on chromosome 12 and M-Index. LocusZoom plot of *TRHDE* region (A) and Box plot for *TRHDE* SNP rs11179301 (B). Mean M-Index for the rs11179301 genotype CC was 53.2 (\pm SD 10.2%) (Figure 1D). Only one individual had genotype TT, and mean M-Index for genotypes CT and TT combined was 48.5 (\pm SD 7.5%).

A.

B.
