

Editorial Note: This manuscript has been previously reviewed at another journal that is not operating a transparent peer review scheme. This document only contains reviewer comments and rebuttal letters for versions considered at *Nature Communications*.

Reviewers' Comments:

Reviewer #1:

Remarks to the Author:

The authors have clarified my comments and also other referees' comments, and have substantially improved the manuscript, especially to emphasize its importance in providing a general tool for the moire community. Therefore, I recommend its publication in Nature Communcations.

Reviewer #3:

Remarks to the Author:

The authors have fully answered all my requests. I therefore suggest the manuscript for publication as a very interesting and high impact work.
