

Description of Additional Supplementary Files

File: Supplementary Data 1

Description: Gene lists generated and used in this study and associated TPM values.

File: Supplementary Data 2

Description: Strain lists generated and/or used in this study.

File: Supplementary Data 3

Description: CRISPR-Cas9 guide RNA lists used in this study.

File: Supplementary Data 4

Description: Primer lists used for RT-qPCR.

File: Supplementary Data 5

Description: Oligos used for smFISH.
