**Supplementary table 1: Age-specific data for seven countries showing population, estimated deaths from all and specific causes over approximately 11 months, compared with COVID-19 deaths from the beginning of the COVID-19 pandemic to between 20 Jan 2020 and 11 Feb 2021 (see note 3)**

**Notes:**

1. Population: collated from national statistical agencies by The Demographics of COVID-19 Deaths, National Institute for Demographic Studies (INED). Available online: <https://dc-covid.site.ined.fr/en/>
2. All cause deaths, unintentional injury deaths, LRTI deaths: Calculated from Global Burden of Disease estimates. Available online: <http://ghdx.healthdata.org/gbd-2017>
3. COVID-19 Deaths: Collated from national statistical agencies by The Demographics of COVID-19 Deaths, National Institute for Demographic Studies (INED). Available online: <https://dc-covid.site.ined.fr/en/> includes deaths reported up to: 3 February 2021 (USA), 29 January 2021 (United Kingdom), 20 January 2021 (Italy), 9 February 2021 (Germany), 10 February 2021 (Spain), 11 February 2021 (France), 3 February 2021 (Korea).

**Supplementary Figure 1: Trends of child mortality from Covid-19 in seven countries between 20 Jan 2020 and 11 Feb 2021. Data displayed for age groups 0-9 and 10-19 years (0-4 and 5-14 for USA). Arrows denote date of peak all-age reported mortality per day from COVID-19 for each country. Notes:**

1. Population: collated from national statistical agencies by The Demographics of COVID-19 Deaths, National Institute for Demographic Studies (INED). Available online: <https://dc-covid.site.ined.fr/en/>
2. COVID-19 Deaths: Collated from national statistical agencies by The Demographics of COVID-19 Deaths, National Institute for Demographic Studies (INED). Available online: <https://dc-covid.site.ined.fr/en/> includes deaths reported up to: 3 February 2021 (USA), 29 January 2021 (United Kingdom), 20 January 2021 (Italy), 9 February 2021 (Germany), 10 February 2021 (Spain), 11 February 2021 (France), 3 February 2021 (Korea).
