

## Data Sharing Statement

<b>Article Info</b>	<a href="http://dx.doi.org/10.21037/jtd-20-2808">http://dx.doi.org/10.21037/jtd-20-2808</a> .	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	If others are interested, then yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The outcomes data in particular can be shared if requested.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Informed consent form can also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since survival data may be updated over time.
7	To whom will you share the data?	Radiation oncologists, medical oncologists and thoracic surgeons who are interested in the topic.
8	For what type of analysis or purpose?	For analysis on evaluating SBRT outcomes in early-stage NSCLC.
9	How or where can the data/documents be obtained?	Emails can be sent to the corresponding author's email address to obtain the shared data as needed.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
