

Instructions to run SAS programs

Steps 1 -5 are for testing the program

Steps 6-8 are for running the program for your data set

To test the programs

1. Go to link: <https://www.phs.wakehealth.edu/public/downloads.cfm#apps>
2. Download the two SAS programs and one test data set and store all the following 3 files (2 SAS program files - Macro.3MSE.Scoring.sas, Test_3MSE_scoring_Supp.sas, and a SAS data file - test3mse_finalsample) under the same directory (called LOCATION for example).
3. Open the file test.3MSE.Scoring.sas and put in LOCATION for paths in libname and % include.
4. Run the program, which will automatically run PROC CONTENTS for the output file.
5. The output data set is labeled TEST3MSE. Within the file the two columns (variables) named _3MSE and MMSEs_derived respectively contain the 3MSE and the MMSE score. *

To apply the program to your own data file

6. Follow variable names that accompany the 3MS form in this file.
7. Example: The variable q1p1 is for the first question part a. (see below)

1. When were you born?

*Note: Need 80% of non-missing responses to generate MMSE score

8. Edit the file Macro.3MSE.Scoring.sas so it has the proper path for where your data set is stored and run the program in Macro.3MSE.Scoring.sas.

(write any additional correct answers on a separate sheet of paper.)

10.1 “In what way are an arm and a leg alike?”

If the participant fails to give an answer that is worth 2 points, mark the appropriate score of 1 or 0. If the answer is not worth 2 points, coach the participant by saying “An arm and a leg are both limbs or extremities.” Do not coach for questions 10.2 and 10.3.

If the participant does not close his/her eyes within 5 seconds, prompt by pointing to the sentence and saying, “**Read and do what this says.**” If the participant has already read the sentence aloud spontaneously, simply say, “**Do what this says.**”

Allow 5 seconds for the response. Mark 1 if the participant reads the sentence aloud, either spontaneously or after your request, but does not close his/her eyes. As soon as the participant closes his/her eyes, say “**Open.**”

- 3** Closes eyes without prompting
- 2** Closes eyes after prompting

Hand the participant a piece of blank paper and a pencil with eraser. If necessary, repeat the sentence word by word as the participant writes. Allow a maximum of 1 minute after the first reading of the sentence for the scored response.

Either printing or cursive writing is allowed. Assign 1 point for each correct word, but no credit for “I”. For each word, mark 0 if there are spelling errors or incorrect mixed capitalizations (all letters printed in uppercase is permissible). Do not penalize self-corrected errors.
