

Description of Additional Supplementary Files

File Name: Supplementary Data 1.

Description: KRAS copy number alterations and mutations in LUAD cohorts.

File Name: Supplementary Data 2.

Description: Gene signature of KRAS WT and KRAS G12D RNA-seq dataset by Gene Set Enrichment Analysis.

File Name: Supplementary Data 3.

Description: Proteins binding to KIMAT1 by RNA Antisense Purification with Mass Spectrometry (RAP-MS).

File Name: Supplementary Data 4.

Description: Network analysis indicating the genes belonging to pathways enriched by KIMAT1 were predicted targets of KIMAT1 suppressed microRNAs.
