

SUPPLEMENTARY TABLE S3. (A) CELL TYPE AND SOURCES REPORTED AS “OTHER” WITH RESPECTIVE INDICATIONS THEY WERE USED TO TREAT AND THE NUMBER OF PATIENTS TREATED; (B) CELL TYPE AND SOURCE OF TREATMENTS WITH COMBINED CELL TYPES WITH RESPECTIVE INDICATIONS AND NUMBER OF PATIENTS TREATED

<i>Cell type and source</i>		<i>Indication</i>		<i>Patients</i>
<b>(A)</b>				
Cardiac stem cells	Cardiovascular	Heart failure		1
Cardiovascular progenitors derived from human embryonic stem cells	Cardiovascular	Heart failure		4
Endothelial cells	Miscellaneous	Cornea repair		11
Gingival fibroblasts	Musculoskeletal/rheumatological	Periodontal tissue repair		5
Limbal epithelial stem cells	Miscellaneous	Cornea repair		25
Melanocytes	Miscellaneous	Skin—Vitiligo		2
Muscle cells	Musculoskeletal/rheumatological	Tendon/ligament		20
	Neurological	Facioscapulohumeral muscular dystrophy		11
Neural crest stem cells from gingival	Musculoskeletal/rheumatological	Bone repair (maxillofacial)		4
Neural crest stem cells derived from hair follicle	Musculoskeletal/rheumatological	Intervertebral disc degeneration		5
	Neurological	Multiple Sclerosis		4
		Peripheral Nerve Regeneration from Trauma		8
		Spinal Cord Injury		6
Neural stem cells from central nervous system tissue of spontaneous miscarriages	Miscellaneous	Glaucoma		4
	Neurological	Amyotrophic lateral sclerosis		18
Pancreatic Islet cells	Miscellaneous	Diabetes		15
<i>Primary cell type</i>	<i>Additional cell types and sources</i>	<i>Indication</i>		<i>Patients</i>
<b>(B)</b>				
BM-MSCs	Osteoprogenitor cells derived and from periosteum and Endothelia cells derived from peripheral blood	Musculoskeletal/rheumatological	Bone repair (orthopedics)	38
Chondrocytes	BM-MSCs	Musculoskeletal/rheumatological	Cartilage repair (maxillofacial)	3
Muscle cells	Allogenic Fat MSCs	Neurological	Facioscapulohumeral muscular dystrophy (FSHD)	11
Keratinocytes	Melanocytes	Miscellaneous	Skin—Vitiligo	501
	Allogenic Fibroblasts	Miscellaneous	Skin reconstruction—burns	2
	Fibroblasts			8
	Allogenic Limbal cells	Miscellaneous	Cornea repair	3

BM, bone marrow; MSC, mesenchymal stromal/stem cells.
