** A value of <100 was suppressed. These small OOP expenditure estimates are a result of the methodology of average annual changes in method mix which introduce very small shares of methods not previously being used in the country.
 *Totals may not match exactly to values summed by country because country estimates of <100 have been suppressed

Note: Additional country level data is available in the Data Annex of the 2019 Commodity Gap Analysis available at [rhesupplies.org/cga](https://supplies.org/cga)
