12 (122)	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0 no pulmonary involvement

Conclusion:

Pat ID 1,2,3,4,7,8,13,14,10 show pulmonary changes consistent with vasculitis involvement.

Pat ID 9,12, 11 have no pulmonary involvement.

Pat ID 6, 15 images are not diagnostic due to breathing artefacts.

Pat ID 5 no distinction between pulmonary metastasis, postoperative changes and vasculitis is possible.

Pat ID 7 radiologic pattern might be mistaken for COVID 19 pneumonia, however typical peripheral and basal distribution is missing.
