

Supplemental Figures

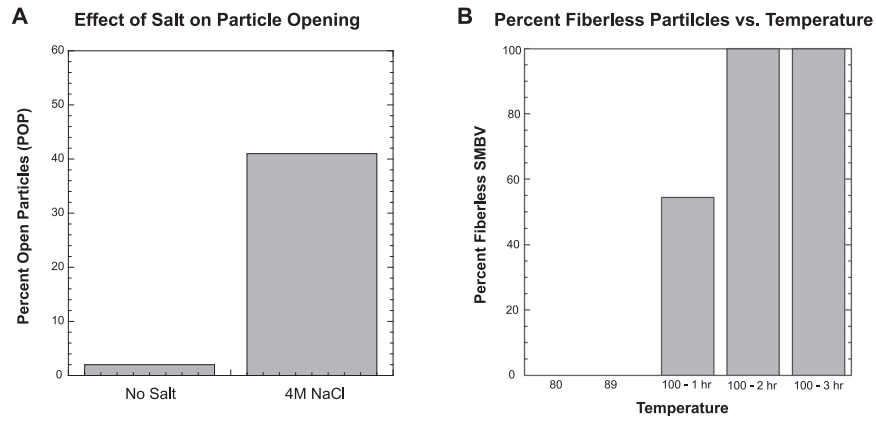

Figure S1. Percentage of Fiberless SMBV Particles at Varying Temperatures, Related to Figure 1

A) Histogram of the percentage of open SMBV particles after treatment with salt. B) Histogram of the percentage of fiberless (open or unopen) SMBV particles at various temperatures and incubation times.

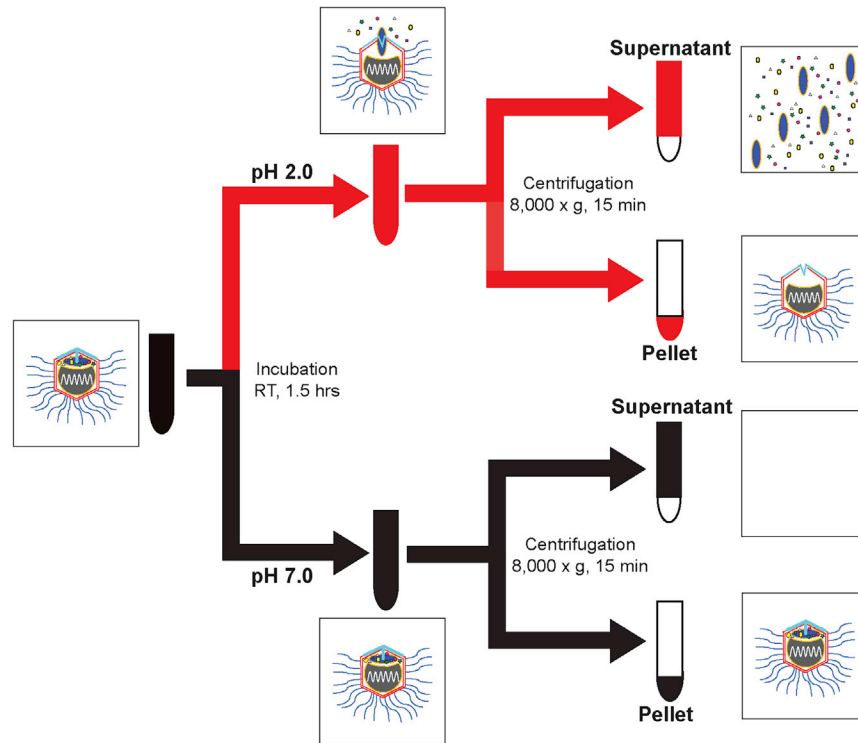

Figure S2. Sample Preparation for SDS-PAGE and LC/MS/MS Experiments, Related to Figures 4 and 5
A cartoon of the workflow schematic used to prepare samples for both the SDS-PAGE and LC/MS/MS experiments.
