## Examples of prediction

---

### Anti-vaccine

*#coronavirus Watch the elites. If they don't succumb at rates similar to the rest of the population, suspect a vaccine in use. Watch the Davos crowd, to see if this is a Globalist depopulation stunt.*

---

*The #MSM will use this so called #coronavirus in order to promote toxic autism causing #vaccines f\*\*\* globalists #AmericaFirst*

---

*@99freemind It would make complete sense that the whole coronavirus story is a racket with the goal of scaring a large part of the world population to willingly get "experimental" vaccine shots with serious side-effects that are actually the hidden main-effect.*

---

### Not anti-vaccine

*Primary care has always been free regardless of immigration status, but most people without status aren't registered with a GP.*

*@DHSCgovuk must go further so that everyone can access the Covid-19 vaccine, regardless of immigration status. #VaccinesForAll  
<https://t.co/4x9TVEIj4s>*

---

*This coronavirus isn't new. Seems it was to be used in vaccines etc from earlier on in the decade.  
<https://t.co/boJMyGhGqD>*

---

*Lebanon races to vaccinate population as COVID-19 deaths rise <https://t.co/6uGolG7XMn>  
#politics #feedly*
